

Walking Trail

Wytheville Community College is home to a Biking and Walking Trail that encircles the main campus and extends behind campus to the ponds along Community Boulevard.

The trail features almost 2.4 miles of paved trail, and bikers, walkers, and runners regularly use the trail to help them get and remain fit. The public is invited to make use of the trail. WCC uses part of the trail for the annual WCC Sprint for Scholarships 5K each spring.

Construction on the trail began in the summer of 2011, with substantial completion occurring in the winter of 2011. The second phase of the trail was completed in Fall 2015.

Funding for the Biking and Walking Trail was provided by the Wythe-Bland Foundation.
