

## Walking Trail

Wytheville Community College is home to a Biking and Walking Trail that encircles the main campus.

The trail features 1.37 miles of paved trail. Bikers, walkers, and runners regularly use the trail to help them get and remain fit. The public is invited to make use of the trail. Once complete, the trail is expected to feature 2.3 miles of paved trail.

Construction on the trail began in the summer of 2011, with substantial completion occurring in the winter of 2011. Design proposals for the second phase of the trail are being sought now.

Funding for the Biking and Walking Trail was provided by the Wythe-Bland Foundation.
