We have an opening in our facility in Independence, VA for an experienced 3D CAD Designer. We are making Heat Shields for Diesel Engines (CAT, Cummins, Etc.) These are mostly Exhaust and Manifold Heat Shields.

McAllister Mills has been in business for 41 years in Independence, VA specializing in high temperature resistance textiles and engineered products. Our philosophy is to continually develop internal talent for ongoing job opportunities within this growing business. McAllister Mills is currently seeking a CAD Drafter/Estimator to support the Precision Engineered Products portfolio. An entry to mid-level position, or a position designed for the newly qualified CAD professional, this career path offers the opportunity to build the engineering department discipline required for a opportunities are also possible.

Major areas

Major areas of responsibility, Advanced 3D CAD Drafter/Estimator:

- Manage engineering document control.
 - Accept job input from sales, build estimates and CAD drawings.
 - Working with technical sales staff, learn how to specify and design high temperature textile products.
 - Proficient in CAD software, produce customer facing product or install drawings as required.
 - Proficient in CAD software, work from 3-D design to producing 2-D executable manufacturing files.
 - Manage project work flow and detailed documentation from sales, to estimator, to manufacturing draftsman ensuring best-in-class design and workflow practices.
 - Develop processes for rapid, cost effective estimating from 'designing and estimating in minutes' for one off products, to complex multi-piece applications in large project installations.
 - Lead product design department best practices by example, coaching and training department technical personnel in efficient and reliable engineering, estimating support and engineering documentation.
 - May supervise other engineering or manufacturing support personnel.
 - Job Requirements:
 - 2-5 years' job estimator experience.
 - CAD proficiency, preferably Solidworks® certification.
 - Demonstrated Self-Directed working skills
 - Immediate filling of position desired.
- Compensation:
- 1-4 weeks vacation earnings based upon years of service.
 - Medical/dental/vision; generous company contribution to cost.
 - Matching 401k plan.
