It is the responsibility of the student to contact volunteer agencies, set up volunteer hours, and complete the agency's volunteer requirements that may be separate from the requirements of the WCC Educational Foundation, Inc.

WCC does not guarantee an agency will have space for students to volunteer.

The lists compiled for each program are organizations that students have volunteered with previously. If a student would like to volunteer at an agency not listed, please reach out to the Scholarship Program Manager.

Please do not wait until the end of the semester to contact an agency for volunteering. Space and time at this point could be limited for volunteer opportunities.
