

TRANSFER COURSES

As evidenced under the ***Dual Enrollment Qualification*** header, dual enrollment students must qualify for dual enrollment/college-level courses by either earning the minimum grade-point average, completing the Virginia Placement Tests in English and Math, or utilizing qualifying exemption standards such as the PSAT, SAT, or ACT.

Courses with additional prerequisites can be found under the 'Next Steps' section. These courses are identified with asterisks (**).

[Passport courses](#) are ones which are transferable and satisfy lower-division general education requirements at any Virginia public institution of higher education.

[UCGS courses](#) are part of the Uniform Certificate of General Studies option. The UCGS is a one-year college program in which all courses are transferable and satisfy lower-division general education requirements at any Virginia public institution of higher education.

The newly-established CCRV (College and Career Ready Virginia) program allows for Virginia public school students to earn either the Passport or the UCGS at no cost.

Please note that not all courses on this list are offered at each school due to multiple factors, including credentialing, scheduling conflicts, and instructor availability – along with approval from both the secondary school and WCC.
